# YOUNG ARTISTS NEEDED

\*\*\*

## Elementary Teachers & Students Take Note!

*We need the participation of you and your students!*

Each year the Oregon-California Trails Association (OCTA) produces a special western calendar based on a particular theme or topic. The calendar created will use the original artwork of elementary students. A prize will be awarded to each child whose artwork is selected.

The Oregon-California Trails Association is dedicated to the study, preservation, interpretation, appreciation and enjoyment of the western pioneer trails. This is one of its educational projects. The project integrates American history and art. We hope that teachers will see the value of this, incorporate it into their class work and encourage their students to participate. Hopefully, it will also increase their students' interest in learning about the West, an important part of our history and that of other peoples who inhabited the area.

**Calendar** – It will run from January-December 2023.

### **Theme for the artwork – Mountain Men, Indians & Emigrants – Trade and Trade Goods**

As the emigrants moved westward, they frequently followed routes used by Mountain Men which were sometimes based on ones developed earlier by Indians. Over the years all three groups often came into contact with each other. They soon learned that each had somethings that the other did not have. This situation sometimes caused problems, but more frequently it led to trading with each other for the items each desired. There were a variety of types of goods and specific kinds traded. While some trade was small scale involving a few people and items, others involve larger groups and even specific places where they met to trade. There was a wide variety of items, but some were more associated with specific groups.

We hope that the students will enjoy their research as they learn about the various items each group had or wanted and what they used to obtain things they needed or even where they obtained them.

**Prizes** – Each student whose artwork is selected will receive a copy of the calendar and a check for \$50.00. The school which the student(s) attends will also receive one calendar. Additional copies of the calendar will also be available for purchase. Prizes will be mailed no later than September, 2022.

**Specifications** – The artwork **must** be an original drawing/painting – not a photo or computer generated art. It **must** be on an 8 ½” x 11” paper. Landscape presentation is preferred, but not mandatory. Twelve to fourteen drawings will be selected. One selection will be made for each month and two others may be used for the cover and the back.

**Two types** of information **MUST** be on the back of each entry. The **first** relates to the drawing. It must identify the who is involved &/or what is depicted. The **second** refers to the student. It **must** identify the student by providing **all** of the following: A) student's first and last name B) school's name C) teacher's name D) student's grade E) student's age F) school's address and G) school's phone number. This will enable OCTA to contact the selected students through their school. The artwork will not be returned.

**If you are a student** who wishes to enter the contest independently of your school's participation, please use your home information and your parent's name if they permit, but also include the name of your school or note if you are being home schooled. Please have a parent sign it on the back with the other information.

**Deadline** – The entries for artwork are due by April 15, 2022. Judging should be completed by June. The calendar should be available by August, 2022.
